Abstract

A short overview of what your report is about.

1 Introduction

2 Nuclear physics and nuclear astrophysics

1. How you add bullets
2. Add a new bullet

2.1 Elements and their production in the Solar System

2.2 Nuclear Burning stages of stars

2.3 The production of heavy nuclei

s-process

r-process

p-process

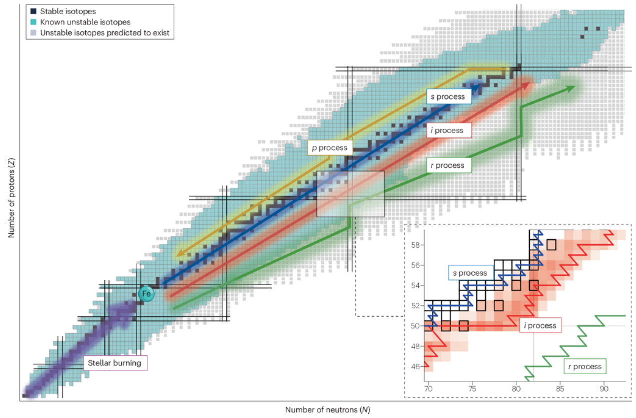

Figure 1: Diagram showing the nuclide chart with the different nucleosynthesis sites. [1]

Table 1: Table showing the typical energy ranges for the different resonances

resonance	Typical energy range (MeV)
GDR	

3 Nuclear Level Density and Gamma Strength Function

4 TALYS

5 TALYS exercises

5.1 Exercise 1

5.2 Exercise 2

5.3 Exercise 3

5.4 Exercise 4

5.5 Exercise 5

5.6 Task

6 Conclusion and Outlook

Appendix A:
